TWIST AND POUT

```
        G
when a baby feels super sad but still wants to twist
      C                                          G
I got a sad little dance that will grant that twisted wish
        D                             F
let your legs go loose and let your emotions out
C              D              C    D   G
stick out your lip swivel your hip twist and pout

G
time for bed but the twist party rages on
  C                                          G
emotionally fragile and twistin' 'till the break of dawn
D                             F
cryin' and dancin' is what this is all about
C              D              C    D   G
stick out your lip swivel your hip twist and pout (2)

C                                    G
any other baby would think about taking a nap
A                             D
any other baby would find a bed and collapse
C                                    G
even though baby is crying it's poor eyes out
C            D
it can still do the twist and pout

solo - G  A  C  G  D  G  A  C  D

          G
it's been a long (long) long (long) time since you started the day
C                                    G
tears on your dancing shoes are stainin' the suede
D                             F
blow you runny nose cry and scream and shout
C              D              C    D   G
stick out your lip swivel your hip twist and pout (2)
C              D              C  C# D F F# G
stick out your lip swivel your hip
```
