

BROWN AND LONELY WORM

hi said the brown and lonely worm
watch me wiggle and watch me squirm
hold me gentle so I dont get hurt
then put me back in the thick black dirt
hi said the spider trappin a fly
Ill tell you the reason why
the reason I dont eat this fly
is this partiular fly is a friend of mine

hi said the brand new baby snake
living on bugs and chocolate cake
wouldnt you rather eat a frog
and sleep with your mommy in a hollow log
hi said the fishy jumping in a lake
Ive been good for goodness sake
dont catch me with your line and hook
and put me in your nursery book
caw said the crow sittin on a cliff
caw caw caw I wonder if
caw caw will it ever end
caw caw not today my friend
hi said the skeleton rattle his bones
I got lost and got no home
give me a blanket and get me fed
and let me live underneath your bed

hi said the rock sitting by the fire
I cant move cause I'm so tired
warm your cold hands till they glow
I would not move even if I could go
hi said the tree with its roots so deep
I've got a secret I cant keep
it cant be sold because its free
I told it to all the birds on me
